Tek Jun Hong

Cloud Engineering

A Cloud Engineering student with a strong foundation in software principles and network infrastructure. Passionate about designing, deploying, and optimizing scalable, secure cloud architectures. Adept at troubleshooting complex systems and working collaboratively to deliver reliable, high-quality technical solutions.

01 WORK EXPERIENCE & PROJECT

2025

INTERNSHIP ON DOTDASH TECHNOLOGIES SDN BHD

As a IT Interns - Software Testing

- Testing the web-based system application to find out any bugs that has on the system.

2026

AWS AI BUILDING COMPETITIONS

As a Creative Team - Design Team

- Worked closely with the User Interface to make it more interesting.

NETWORK SECURITY

- Designed and simulated a secure, multi-branch enterprise network for a retail e-commerce scenario using Cisco Packet Tracer.

SWITCHING AND ROUTING ESSENTIALS

- Deployed high-availability and link redundancy protocols, including HSRP and EtherChannel bundles, to eliminate single points of failure.

04 ACHIEVEMENTS

AWS AI BUILDING COMPETITIONS — **Qualified into TOP 20**
Designed a Anti-Scam government-based website using Proper AI

02 EDUCATION

ASIA PACIFIC UNIVERSITY

Diploma in Information & Communication Technology with a specialism in **Software Engineering**

ASIA PACIFIC UNIVERSITY

Degree Year 2 in Bachelor of Science (Honours) in Information Technology with a specialism in **Cloud Engineering**

03 PERSONAL SKILL

System Analysis & Planning **80%**

Architectural Innovation **70%**

Technical Troubleshooting **90%**
